INSPIRED BEVERAGES

Near the turn of the 20th century, some politicians, economists, and social reformers in France felt their country's working class were rapidly decreasing their wine consumption, that "nat-

ural and hygienic drink", and turning to the evils of mass-produced industrial alcohol, especially absinthe. From the Breton peasant who indulged in Calvados to the workers of Paris, who flocked to local bars and cabarets, alcoholism was considered a serious *grand fleaux*, or "great plague." Over the years between 1850 and 1914, the annual consumption of alcohol had doubled to 30 liters per adult in France. Thus, the first officially recognized temperance association was the *Société Française de Tempérance* founded in 1872.

The following beverages are devoted to this little-known part of French culture and history.
